Indonesia Cloud Architect - Multi-tenant Platforms Indonesia) Jobs in Jakarta,

IndonesiaYoutap Limited is looking for a talented Cloud Architect with expertise in multi-tenant environments to join our team. As a Cloud Architect, you will be responsible for designing and implementing cloud-based solutions that can support multiple customers and tenants,

ensuring scalability, security, and performance. Youtap Limited is a leading provider of white-label digital banking and digital payments solutions, empowering consumers and

merchants worldwide to transact digitally using their digital wallets.In this role, you will

work closely with our development, operations, and security teams to design and implement

cloud architecture that meets the unique needs of our multi-tenant environment. You will be

responsible for designing and implementing scalable infrastructure, defining security controls,

and ensuring efficient resource allocation. This is a great opportunity for a skilled Cloud

Architect to make a significant impact and contribute to the growth and success of our

company.**Requirements**Responsibilities:Design and implement scalable and secure cloud-

based solutions for multi-tenant environments. Define and implement cloud architecture best

practices for multi-tenant systems.Collaborate with development, operations, and security

teams to ensure efficient and effective deployment and management of multi-tenant

environments.Implement infrastructure as code , using tools such as Terraform or AWS

CloudFormation.Define and enforce security controls to protect customer data and ensure

compliance with relevant data protection regulations. Optimize resource allocation and utilization to maximize performance and cost-effectiveness. Participate in the evaluation and selection of cloud providers and technologies. Stay up to date with the latest trends and best practices in cloud architecture and multi-tenant systems.
