Company: IlmuOne Data

Location: Jakarta

Category: other-general

Job Description:

We are seeking an experienced Cloud Architect to join our team. In this role, you will be responsible for designing and implementing cloud-based solutions that meet the needs of our organization. You will work closely with stakeholders to understand business requirements and develop architecture that enables the delivery of scalable, reliable and secure cloud services.

Requirements:

Bachelor's degree in Computer Science or a related field
5+ years of experience in cloud architecture design and implementation

Hands-on experience with cloud computing platforms such as Amazon Web Services (AWS), Microsoft Azure, or Google Cloud Platform (GCP)

Experience with containerization and orchestration technologies such as Docker and Kubernetes

Strong understanding of infrastructure-as-code (IaC) and related tools such as Terraform

Excellent communication and stakeholder management skills

Good to have:

Master's degree in Computer Science or a related field

Industry-recognized cloud certification such as AWS Solutions Architect, Microsoft Azure Solutions Architect, or Google Cloud Certified - Professional Cloud Architect

Experience with serverless computing technologies such as AWS Lambda or Azure Functions

Experience with data management and analytics tools such as Apache Kafka, Apache Spark, or Google BigQuery

Experience with DevOps and continuous integration/continuous delivery (CI/CD) pipelines
