

## Golang DevelopersIndonesia

[Apply Now](#)

Company: Mitrais

Location: Indonesia

Category: other-general

### **Build your Career with Mitrais!**

Build your Career with Mitrais!

We're looking for experienced GolangDevelopers to be part of our team.

What will you be doing?

Liaising with functional team and business users to define development requirements.

Developing programs that conform to the functional and technical specifications.

Planning and executing unit testing, string testing, and integration testing.

Supporting all levels of testing, problem-solving, and bug fixing.

Performance tuning of programs.

What about you?

Proven GO / Golang Development experience

Experience with Go concurrency

Development background in a backend language like C, C++, Java, or Python

Experience working in an Agile environment.

What can Mitrais offer you?

A CAREER, not a JOB!

Competitive salary

Excellent working environment, with the possibility to relocate to our regional offices and work remotely

Free English classes, English is our working language

Lots of opportunities to improve your competencies on our technical boot camps, certification programs, and soft skills training courses

Hackathons with big prizes!

Learn about life at Mitrais from our current team by searching #mitraislife on Social Media.

**Please note that all activities included in the recruitment processes are free of charge. Beware of online scams such as persons posing to represent the Mitrais Recruitment Team or other recruiting-related personnel by sending unsolicited text messages and emails asking you to provide personal information, transfer money, or do any other specific activities.**

To Apply...? Simply click the apply button, complete the form and upload your latest CV in English! What are you waiting for?
