Industrial Hygienist (Indonesia)

Location: Indonesia

Term: Full-time/ Residential

Company Overview:

About the Job:

This position will support the function of the Occupational Hygiene department in the technical direction and support of Occupational Hygiene activities and the associated resources (people and assets) in a pro-active manner to identify and manage hygiene-related risks at the client site.

Duties and responsibilities:

To technically guide, develop and to assess the skills, coach, and mentor the National Hygiene team, recruited to work at the client site

Develop and deliver the 12-month Health & Hygiene Management & Monitoring Plan and implementation schedule to meet, as a minimum, relevant legislative standards and requirements.

Recommend control measures to mitigate hygiene risk and ensure adherence to all relevant standards and compliance standards and legislations.

Continuously improve the Hygiene management standards, procedures, tools, and programs to enable the operations to effectively manage Hygiene risk and outcomes, including incorporating regulatory changes or industry learnings.

Engage and collaborate with business stakeholders including front-line and management on hygiene performance and compliance, hygiene risk reduction and improvement opportunities and control effectiveness of area hygiene programs and controls.

Provide SME advice into operational & business activities on all health and hygiene impacts and risks.

Requirements:

Professional background: Post-secondary or equivalent education obtained through degrees, certificates (e.g. apprenticeship or trades certificate) or diplomas from academic or vocational training centers.

Qualification: Qualification in Occupational Hygiene, Public Health or acceptable equivalent.

At least 5 years relevant experience, or otherwise the significant practical experience and on the job training

Strong and demonstrated commitment to occupational health and hygiene.

Smelter experience (ie metal refineries) is a MUST

Excellent communication skills (oral, written and presentation) in English.

Must demonstrate participative program solving, project implementation, decision-making and continuous improvement.

Advanced computer skills in MS Word, Excel and database software

Light vehicle license is essential.
