The Offer

Opening within a company with a solid track record of success

Flexible working options

Opportunity to make a positive impact

The Job

You will be responsible for :

Creating predictive and prescriptive models that could have a positive impact on the business.

Driving all data analytics activities ranging from conceptualisation, visualisation to operationalisation.

Performing statistical analysis on historical data to validate models.

Working across stakeholders to identify and capitalise on opportunities to leverage data to drive business solutions.

Handling data entry tasks and collating and updating information in to the system.

Assisting in filing and scanning of documents.

Providing ad hoc administrative support to the team as required.

The Profile

You possess an advanced degree, ideally a PHD, in Mathematics, Statistics, Computer Science or related field.

You have at least 1 year experience, ideally within a Data Entry or Data Scientist role.

Ability to write and execute complex queries in SQL.

You have good computer skills (MS Word, Excel, Powerpoint).

You are organised and have good interpersonal skills.

You are a self-starter and demonstrate a high level of resilience

You are adaptable and thrive in changing environments

You possess strong analytical skills and are comfortable dealing with numerical data

The Employer

Our client partners with a diverse and vibrant community to help their customers enhance their AI and machine learning models. The work of their AI Community contributes to improving technology and the digital experiences of many people around the world. Their AI Community works in their proprietary AI training platform handling all data types (text, images, audio, video and geo) across 500+ languages and dialects. They offer flexible work-from-home opportunities for people with passion for languages.
