### **Build your Career with Mitrais!**

Build your Career with Mitrais!

We're urgently looking for experienced PHP Developers to be part of our team for an immediate start. Our client is a leading integrator of Accounting Software to E-commerce platforms in Australia.

with a great reputation in the industry and are known for pushing the envelope and providing innovative solutions that ultimately allow to open up more sales channels, while ensuring no double entry of data is ever required to keep their systems in Sync.

What will you be doing?

Working in a small team, you will be responsible for contributing at a high level towards the direction of all product development.

You will be required to contribute ideas and processes aimed at improving our current platform, as well as suggesting new and innovative ways (including new technologies) of moving our platform forward.

You will be required to contribute to the Senior software planning sessions (and implementation) as well as oversee Junior development work (including code reviews) and in some cases assist with support issues where required.

Manage change control within the product life cycle.

Identify design improvements and value engineering opportunities.

Attend design reviews and project technical progress meetings.

What about you?

Full-stack development skills and experience

Guru level PHP/MySQL Skills

E-commerce development experience (Magento, Bigcommerce, Shopify)

Experience working with current PHP frameworks (Symfony 2, Laravel, etc)

Experience working with Amazon Web Services environment

Experience working with a variety of API's/ODBC's/SDK's and moving around large amounts of data between systems.

Experience working in at least one of these languages/frameworks (.Net, Java, Golang, Ruby, ReactJS, Angular, NodeJS, Kotlin, Swift, Flutter)

Experience building automated tests with a particular focus on writing highly optimized and efficient code.

Having reasonable English written and spoken.

Undergraduate University degree.

Nice to have:

Experience working with Atlassian product suite

Accounting Software integration experience (MYOB, Attache, Xero, Reckon, Quickbooks, Jiwa, Ostendo, etc)

Deeper Accounting software experience dealing with core accounting functions and transactional data

Knowledge of local or international marketplaces (eBay, Trademe, Amazon, Lazada)

What can Mitrais offer you?

A CAREER, not a JOB!

Competitive salary

Excellent working environment, with the possibility to relocate to our regional offices and work remotely

Free English classes, English is our working language

Lots of opportunities to improve your competencies on our technical boot camps, certification programs, and soft skills training courses

Hackathons with big prizes!

Learn about life at Mitrais from our current team by searching #mitraislife on Social Media.

Please note that all activities included in the recruitment processes are free of charge.

Beware of online scams such as persons posing to represent the Mitrais Recruitment Team or other recruiting-related personnel by sending unsolicited text messages and emails asking you to provide personal information, transfer money, or do any other specific activities.

To Apply...Simply click the apply button, complete the form and upload your latest CV in English! What are you waiting for?
