

QA Automation Engineer

Apply Now

Company: Halokerja

Location: Indonesia

Category: other-general

We are looking for a talented QA Automation Engineer to join our team. The candidate that will succeed in this position will be able to automate tests within complex projects to ensure product quality. Responsibilities Involve in QA and testing across the web and mobile applications. Analyze, identify, prepare and execute test cases throughout the software lifecycle. Perform all aspects of application testing including functional, Regression, Compatibility, User Interface, Negative and Exploratory testing. Work with all members of the project team to develop tests and provide test results. Ability to document and troubleshoot errors. Updating Project Manager / Test Lead regularly about the progress of testing activities. Requirements Degree or Postgraduate holder with Major in Information Technology, Computer Science, or other similar focus, and a cumulative GPA of 3.5 and above. Previous experience working as a QA automation engineer. Experience in developing automated test cases in at least one programming language. Strong knowledge of software QA methodologies, tools and processes. Experience in writing clear, concise, and comprehensive test plans and test cases. What we can offer you Challenging work in a fun and collaborative environment. Open-concept office space. Multicultural teams represented by 15+ nationalities. Flexible working arrangements and casual work setting. Min. Diploma, preferably Bachelor Degree. Min. 3-5 years in management level. Problem solving and analytical ability. Ensure safety regulations are adhered to. <https://www.halokerja.id> connects jobseekers and recruiters by accurately matching candidate profiles to the relevant job openings through an advanced 2-way matching technology. While most job portals only focus on getting candidates the next job, Shine focuses on the entire career growth

ofcandidates.
