[Apply Now](#)

Company: Corteva Agriscience

Location: Kota Jakarta Timur

Category: other-general

### Description

#### ABOUT THE ROLE / PURPOSE

The SEA Logistics Lead is accountable for all Logistics, International Trade Operations and Compliance activities across all SEA countries. This role collaborates with local, regional and global stakeholders across Commercial, Supply Chain, Procurement and Regulatory functions, as well as with external suppliers across warehousing, transport and customs.

#### KEY RESPONSIBILITIES:

##### Order Fulfillment & Logistics Leader

Purpose: Functional leadership for Logistics, International Trade Operations and Compliance across SEA.

- Responsible for maintaining an effective distribution network capability. Responsible for all transportation modes including road carriers, marine and air operations.
- Drive high customer service performance standards and accountable for key KPI's including On-time Shipment, On-time Delivery, Inventory Record Accuracy and Cost-to-Serve.
- Charter and sponsor improvement programs related to logistics.
- Ensure proper training and on-boarding is assigned and completed for new team members. Identifies gaps in current work process/training/system issues. Ensures continuing/ongoing training requirements are fulfilled for the entire organization with respect to transport and international trade compliance.
- Facilitate a strong partnership across supply chain team, customer services and commercial

teams.

- Active participation in regional and global Corteva functional network teams.
- Assure integration and optimization of key work processes, systems and technology. Identifies solutions, initiatives, and tools to optimize logistics-supply chain cost and efficiency.
- Oversight of import duty payments and reduction initiatives (ex. drawback, Misc. tariff bill legislation, preferential origin).
- Provide insight on regional market conditions and lead efforts minimize impact of supply chain logistics disruptions.
- Partner with the Purchasing function to specify contract requirements for vendor services secured through third parties on behalf of the business. Manage supplier performance to ensure business needs are being met, point of escalation.
- Accountable for regional distribution and warehouse expense – cost centre owner.
- Accountable for all Distribution Safety & Security activities including adherence to all external regulations and internal standards.
- Responsible for management and maintenance of required industry certification to support Corteva operations.

### **Trade Compliance Specialist**

Purpose: Ensure International Trade Compliance for SEA. Lead the compliance on export & import regulatory requirements. Lead improvement projects in SEA and contribute to some global improvement projects.

#### ·International Trade Operations

- oEnsure compliance on all the trade regulations through the documentation of the requirements and the implementation of the corresponding procedures

- oDesign and manage the relationships with all the Third Party Logistics Service

Providers supporting the International Trade Operations in relationships with Purchasing
