

Senior EHS&T Advisor

[Apply Now](#)

Company: Boart Longyear

Location: Jakarta

Category: other-general

Job Description:

As part of our commitment to strengthen our safety presence across our field operations, we currently have an opportunity available for a site-based **SeniorEHST Advisor** . This vacancy is currently open to candidates with a personal commitment to safety and experience of safety practices and leadership, looking to progress their career within the EHST.

This role will be based at our project site; partnering with operational leaders to manage EHST risk in the workplace. Building a successful relationship with our team and client contacts is crucial in delivering a strong EHST culture in the field through our EHST Management Systems and Programs.

Day-to-day responsibilities include:

Influence, coach and partner with operational leaders and team members to encourage best practises and behaviours are enabled, enhancing EHST outcomes, and over-arching goals objectives are achieved.

Collaborate with the EHST team members to develop and deliver agreed activities and results.

Demonstrate a cross business culture of 'One Team', delivering the best outcome for Boart Longyear and providing excellent functional support service.

Foster ongoing positive relationships with all stakeholders and manage the relationship and interface with key business functions and clients to optimise benefits to the Company.

Conduct deep dives on EHST data to analyse EHS information and identify/implement risk

reduction opportunities for continuous improvement.

Promote and utilise available technologies to improve EHST reporting and outcomes.

Provide coaching and guidance on the management of EHST requirements and standards within Boart Longyear.

Conduct and facilitate ICAM and 5 why investigations incident investigations to identify failures and recommend corrective actions.

Undertake projects and analysis to support best practise and opportunity for growth within the EHST realm.

Successful candidates will require relevant WHS or OHS certification, strong stakeholder engagement and communication skills, and proven ability to organise and manage competing priorities.
