1 days ago Description Are you a talented senior developer looking for a remote job that lets you show your skills and get better compensation and career growth? Look no further than Lemon.io - the marketplace that connects you with hand-picked startups in the US and Europe. What do we offer: We respect your time: here is no micromanagement or screen trackers. You can earn with us \$5k - \$7.5k monthly - the rate depends on your skills and experience. We've already paid out over \$10M to our engineers. You will enjoy your work - it's possible to communicate async and choose a schedule that works best for you. You will communicate directly with the clients. Most of them have technical backgrounds. Sounds good, yeah? We will support you from the time when the application will be started during all our cooperation. No more hunting for clients or negotiating rates - let us handle the business side of things so you can focus on what you do best. We'll manually find you the best project according to your skills and preferences. You will work at the fast-paced startup environment that will keep you motivated and engaged. We will connect you with the best developers in the world through our community. We also collaborate with other companies through staff augmentation. More details are here . Who we are looking for: Senior Software Developer Senior+ Software Developer Requirements: Proficiency with PHP/Laravel (2+ years of exp) Strong experience with React (2+ years of exp) Experience with relational databases (e.g., MySQL) and NoSQL (e.g., MongoDB). Proficiency in developing both GraphQL and RESTful APIs. Familiarity with cloud computing (GCP, AWS, Azure) Experience with other PHP frameworks such as Symfony, Yii, or CodeIgniter would be a plus Familiarity with deployment workflows, continuous integration/continuous deployment (CI/CD)

processes, and containerization tools like Docker is a plus. Good command of English, both written and spoken, as you'll be communicating with clients directly Strong organizational skills — ability to work full-time remotely with no supervision Responsibility — we want to trust you Soft skills — we value clear and effective communication, at the same time, don't force you to become a public speaker Ready to take your career to the next level? Apply now and join the Lemon.io community! ALSO, we have a large number of different projects for Senior Full-stack Developers, so if you have 4+ years of commercial experience in software development you are fluent with Python, React Native, Data Engineering, Data Science, AI and ML - we would be happy to communicate and provide you a project which matches with your experience. Just apply, and we will share with you more details. Ready to take your career to the next level? Apply now and join the Lemon.io community! If your experience matches with our requirements be ready for the next steps: VideoAsk (about 10 minutes) Completing your me.lemon profile 30 minutes Screening call with our Recruiters Technical Interview with our Developers Feedback Magic Box (we are looking for best project for you) P.S. We work with developers from 59 countries in different regions: Europe, LATAM, Asia (Philippines, Indonesia), Oceania (Australia, New Zealand, Papua New Guinea), Canada and the UK. However, we have some exceptions. At the moment, we don't have a legal basis to accept applicants from certain European countries: Albania, Belarus, Bosnia and Herzegovina, Croatia, Iceland, Liechtenstein, Kosovo, Montenegro, North Macedonia, Russia, Serbia, and Slovenia. Additionally, there are a few countries in Latin America from which we cannot accept applicants: Cuba and Nicaragua, as well as most Asian countries. Furthermore, we are unable to accept applicants from Africa. Please note that due to the overwhelming number of applications, only suitable candidates will be contacted for an interview. We strongly ask you to send your CVs in ENGLISH. Application in English will be considered first. Good luck to everyone! Want to stay one step ahead of the latest teleworks? HuntsBot, a one-stop outsourcing task, remote job, product ideas sharing and subscription platform, which supports DingTalk, Lark, WeCom, Email and Telegram robot subscription.
