

## Senior Golang DeveloperIndonesia

[Apply Now](#)

Company: Mitrais

Location: Indonesia

Category: other-general

### **Build your Career with Mitrais!**

Build your Career with Mitrais!

Mitrais has engaged a large Australian software company on an exciting software development project. We're looking for Senior Golang Developer to be part of the team.

What will you be doing?

Coding high-quality software using distributed computing, messaging, microservices, performance tuning and memory and resource management techniques

Developing data-driven solutions for a range of clients.

Collaborating within cross-functional and international agile teams.

Led the creation of a new architecture to solve a medium to large technical problem

Guided other team members on how to develop within this architecture over a period of at least 3 months

Collaborating within cross-functional and complex technical ecosystem

What about you?

Proven Go/ Golang development experience.

Experience in PHP frameworks.

Expertise in building APIs, Restful or RPCs and design best practices. We use

OpenAPI/Swagger and gRPC.

Deep knowledge in relational and noSQL datastores, we use MySQL, Redis and AWS services like S3, DynamoDB, etc

Experience with modern build, techniques, architectures and practices. We use AWS, ECS, Lambda, Docker, Jenkins, etc

What can Mitrais offer you?

A CAREER, not a JOB!

Competitive salary

Excellent working environment, with the possibility to relocate to our regional offices and working remotely

Free English classes, English is our working language

Lots of opportunities to improve your competencies on our technical bootcamps, certification programs and soft skills training courses

Hackathons with big prizes!
