

## Senior Quality Auditor

[Apply Now](#)

Company: SQA Services

Location: Indonesia

Category: other-general

**Job description:** If you have an eye for detail and want to help assure quality and facility qualifying and monitoring supply chain's via audits in the animal health, pharmaceutical and similar regulated environments space, then this is the role for you! We have upcoming projects in Indonesia in 2024, 2025 and beyond! We're looking for an auditor in Indonesia to perform audits throughout the country. The first opportunity of the year is a 1-day on-site audit in Desa Limusnunggal, Cileungsi, Bogor targeted for the 20 to 24 May 2024 time period. We're looking for a Sr. Quality Auditor with the following knowledge and experience:

- Language: Ability to conduct an audit in Indonesian and write a report in English
- Technical Qualifications: At least five years' experience in quality role and/or as auditor
- Experience as lead auditor and/or in a quality role where you have been responsible for ensuring animal drug manufacturers' compliance to good manufacturing practices (GMPs)
- Experience as lead auditor and/or in a quality role where you have been responsible for ensuring animal food and medicated feed manufacturers' compliance to good manufacturing practices (GMPs)
- Experience as lead auditor and/or in a quality role where you have been responsible for ensuring active pharmaceutical ingredient (API) manufacturers' compliance to good manufacturing practices (GMPs), including ICH Q7 requirements
- Experience as lead auditor and/or in a quality role where you have been responsible for ensuring warehousing and distribution site's compliance to good distribution practices (GDPs)
- Experience as lead auditor and/or in a quality role where you have been responsible for ensuring primary packaging production site's and secondary packaging site's compliance to good manufacturing practices (GMPs) requirements
- Knowledgeable of Manual for Prime Method of Animal Drugs

manufacturing (CPOHB) requirements, HACCP (Hazard analysis and critical control points) requirements, ISO 14001 Standard (environmental management systems), ISO 45001 Standard (occupational health and safety systems) Preferably experience as lead auditor and/or in a quality role, ensuring compliance to Prime Method of Animal Drugs manufacturing (CPOHB) requirements and HACCP (Hazard analysis and critical control points) requirements, ISO 14001 Standard (environmental management systems), ISO 45001 Standard (occupational health and safety systems) What you'll do: You will be performing quality audits and writing reports, either internally, or at suppliers to SQA's clients. Each client has unique program needs to which you will be oriented as part of your on-boarding for each program. SQA will provide the audit tools and templates you'll need to conduct the audit effectively and seamlessly in accordance with SQA's and our client's requirements. What to expect: You will be part of a global quality auditing team responsible for assuring quality in the supply chains of our clients in life sciences, including animal health. Covering your local region, you will work closely with SQA's operations center to coordinate, prepare, execute, and deliver supplier quality audits based on client audit schedules. You will work with SQA's world-class production team to align your expert findings to the individual structure and guidelines of each client's managed audit program. \$800 - \$1,000 a day
