

Technical Consultants

[Apply Now](#)

Company: ElysianNxt

Location: Indonesia

Category: other-general

In this role, you will work on project-based implementation at the client's site or offsite under the guidance of project lead and senior consultant. You will be working closely with our development team and functional consultants to implement the software and manage changes based on client requests. Our customer base is entirely made up of Financial Institutions. You will be joining a team that is focused on providing Financial Institutions with software solutions in the Finance and Risk area. Our expert team consists of an ideal mix of in-depth functional knowledge and technical expertise. We value passion, drive, ability to learn quickly, determination in problem solving, and team work.

Responsibilities

- Implement software based on project agreement
- Deliver input to the project lead regarding all project related items for your area (e.g. planning, progress, deliverables, risk & issue, etc.)
- Work closely together with the senior consultants and give support during trainings in order to guarantee a smooth handover of the implemented software modules

Qualifications

- A Bachelor's degree (or equivalent/higher) in Computer Science, Computer and Information Technology or Software Engineering (or related field)

Skills

- Python
- Distributed architectures and messaging protocols
- Databases such as Postgres SQL, SQL Server, etc.
- Container (Docker) and its orchestration such as Kubernetes, DockerSwarm, etc.
- Knowledge in networking, security, storage & backup, etc.
- Working knowledge of Linux
- Git / Bitbucket

Personality

- Team-player, proactive and hungry to learn
- Problem-solving abilities and ability to meet deadlines
- Ability to adapt quickly to changing requirements, priorities and technologies
- Good communication and interpersonal skills
- International environment and opportunities to travel

Broken-heart leave

- 15 days annual leave + 1 extra day per year seniority up to a maximum of 5 additional

daysHealth insurance (including immediate family members)Annual bonusAnnual company
outingOnly English resumes will be considered Interested candidates are invited to submit their
resume and expected salary to us by clicking the Apply Now button above orBy emailing:
