

## UI/UX Designer

Apply Now

Company: Codekeeper

Location: Indonesia

Category: other-general

UI/UX Designer Are you a talented designer with a passion for product management? If you thrive in a fast-paced, ever-changing environment where you can make a real impact, we have the perfect job for you! Codekeeper is accepting applications for the next two months and will fill the position as soon as we've found the perfect match. Role Description: As a designer, your primary focus will be transforming customer needs into user journeys and creating visually appealing and intuitive interfaces. Your design skills will play a vital role in turning ideas into tangible products that our development team will bring to life. Key Responsibilities: Translate customer needs into user journeys and design beautiful and intuitive interfaces. Collaborate with the Product Manager and/or Creative Director to conduct research, design, and prototype new user experiences. Develop user cases, scenarios, wireframes, prototypes, and mockups for screens and flows. Create visual assets and document design guidelines for implementation. Present and effectively communicate designs and deliverables to peers and executives. More about Codekeeper: Codekeeper was founded by tech industry professionals to revolutionize software escrow for the cloud era. We offer state-of-the-art software escrow solutions that mitigate third-party risks in business operations. As a remote-first company with a central office in The Hague, we prioritize a healthy, resilient organization to support the development of our robust app. For more information, visit our website: <https://codekeeper.co/> What We Offer: Passionate and fun-loving colleagues Startup mindset with ample opportunities for growth Regular team activities and gatherings Comprehensive onboarding process with a dedicated ramp-up period A supportive team that values open communication and direct feedback A chance to

excel in your career and make a difference What we are looking for: Proficient copywriting skills in English. Strong understanding of color theory and typography. Ability to thrive in a fast-paced, deadline-driven environment. Dedication, enthusiasm, and a sense of humor. Access to a Mac with Figma (or preference for this design tool). Additional Requirements: Analysis of user journeys. Working with design systems and symbol libraries. Additional Info: Job Location: Remote (#LI-Remote) Join us to shape the future of software escrow! How to Apply Please send an application that speaks directly to how you would like to fill this position. There are no right answers or expectations. Show us your role in our company's future and our role in yours. Address some of the work we do. Introduce yourself as a colleague. Feel free to respond in either Dutch or English. Powered by JazzHR
